Insta	Illation steps	2
1.	Copy the KeyDrivers-SV.zip file into an empty folder	2
2.	Unzip the files from the zip into that folder	2
3.	Copy the chart template file to your SPSS installation folder	3
4.	Launch SPSS	3
5.	Add the custom dialog into SPSS Statistics	3

SPSS Version Considerations

The KDA plug-in uses a chart template file (discussed below). It currently assumes that you are running SPSS Statistics version 22. However it can be adapted to run against an earlier version of SPSS if you have one.

If you need to install to an earlier version please email us at <u>support@sv-europe.com</u>.

Installation steps

The installation consists of 4 steps

- 1. Copy the KeyDrivers-SV.zip file into an empty folder
- 2. Unzip the files from the zip into that folder
- 3. Copy the chart template file to your SPSS installation template folder
- 4. Launch SPSS
- 5. Add the custom dialog in SPSS

1. Copy the KeyDrivers-SV.zip file into an empty folder

In our example we copied the files to c:\temp\KDA

KDA _ Ŧ 2 Home Share View \land File X Cut New item 🔻 🖾 Open 🤊 🔡 Select all Non Copy path Easy access 🔀 Edit Select none Сору New Paste Move Delete Rename Properties Copy 🖲 Paste shortcut Chistory to folder Clipboard Organise New Open Select ↑ 🌗 → This PC → Windows (C:) → temp → KDA € ∋ v C Search KDA Q -Date modified Size Name Type 🍓 Homegroup 🔁 Key Drivers Analysis v2.pdf 442 KB 12/09/2014 16:09 Adobe Acrobat D... 6 Key_Drivers.sgt 21/02/2013 20:16 SGT File 5 KB 💻 This PC KeyDriversStudy.sav 06/10/2014 10:11 SPSS Statistics Dat... 8 KB 📔 Desktop KeyDrivers-SV.spd 06/10/2014 10:10 4 KB SPSS Statistics UI ... Documents 🔁 KeyDrivers-SV.zip 12/09/2014 17:13 4 KB zip Archive \rm Downloads Music 📄 Pictures 퉬 SugarSync Drive Videos Windows (C:) RECOVERY (D:) 📬 Network 8== 5 items

2. Unzip the files from the zip into that folder

The KeyDriversStudy.sav file is the SPSS data file referenced in the User Guide

3. Copy the chart template file to your SPSS installation folder

The chart template file Key_drivers.sgt should be copied to the SPSS 22 templates folder

C:\Program Files\IBM\SPSS\Statistics\22\Looks\

4. Launch SPSS

Launch SPSS in the usual way

5. Add the custom dialog into SPSS Statistics

In SPSS Statistics navigate to the Install Custom Dialog tool

Utilities | Dialogs | Install Custom Dialog...

Custo	om <u>D</u> ialogs		•	🔳 Install C	ustom <u>D</u> ia	alog	
Extension <u>B</u> undles				📰 Custom Dialog <u>B</u> uilder			

Navigate to the folder into which you unzipped the .spd (custom dialog) file

t	Open a Dialog Specification	×
Look in: 🜗	KDA 🗾 🔯 🔯 🔠 🗮	
KeyDriver	s-SV.spd	
File name:	KeyDrivers-SV.spd	Open
Files of type:	Custom dialog package files (*.spd)	Cancel
	Retrieve File From Repository	<u>H</u> elp

Select Open

Back in SPSS a Custom dialog should have been installed and it can be launched from

Custom | Key Drivers

When this menu choice is selected the Key Drivers dialog should appear (as usual you will need to have a data file open in SPSS to use it).
